- xxii. *In accordance with Condition 43.2.7 of its Licence, MT is hereby directed to produce separated accounts. The format, timing and reporting requirements of these accounts will be subject to agreement with the Commission.*

The Commission has been working with Manx Telecom to implement the 2012 decision notice of the 2012 Market Reviews. This notice is issued following agreement by Manx Telecom that it will work to this timescale in relation to its Accounting Separation obligation.

Section (5)(6)(a) of the Telecommunications Act 1984 provides the basis for the Commission to include licence conditions requiring a person to comply with a direction:

(6) Without prejudice to the generality of subsection (5)(a), conditions included by virtue of that paragraph in a licence granted under this section to a particular person may require that person —

(a) to comply with any direction given by the Council of Ministers or the Commission as to such matters as are specified in the licence or are of a description so specified;

Section 43.2.7 of the Manx Telecom licence under the Telecommunications Act 1984 provides the basis for requiring separated accounts to be provided to the Commission:

conditions requiring the Communications Provider to maintain a separation for accounting purposes between such different matters relating to Network Access to the Relevant Network as the Commission may from time to time direct, as well as conditions imposing requirements about the accounting methods to be used in maintaining the separation.
